

City of Baraboo Common Council

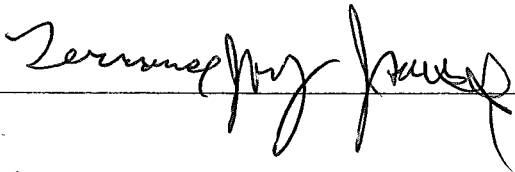

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

City of Baraboo Common Council

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

City of Baraboo Common Council

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

City of Baraboo Common Council

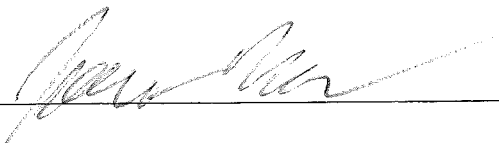

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

As a resident, I believe that all businesses have experienced hard economic times through 2020 and 2021. By designating the City of Baraboo an ATV Destination, it would benefit the majority of businesses in the Baraboo Area. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of nearly 1,200 miles of ATV routes in Sauk County which allows it to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo, the only city in Sauk County without ATV access for its businesses and residents.
- 11 of its 14 Villages have ATV routes have designated ATV routes.
- 20 of its 22 townships have ATV routes in some form with many having all roads designated as ATV routes. The remaining townships which are Greenfield and Merrimac. On June 13th, 2021 Greenfield Township voted to approve an ATV Ordinance on its town roads. Merrimac is the remaining Township still hoping to adopt ATV routes.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

City of Baraboo Common Council

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours

City of Baraboo Common Council

As a Resident of the City of Baraboo, I humbly ask the City of Baraboo to consider the idea of opening all the city streets in the City of Baraboo, except State Highways 136 and 33 (8th Avenue & Streets). As a resident, I believe that all businesses have experienced hard economic times through 2020 and by designating the City of Baraboo an ATV Destination it would benefit the majority of businesses and help many of them survive through these dark times. Many cities throughout the nation are now opening their streets while seeing the economic value with little or no problems.

The Sauk County ATV Route System consists of over 1,000 miles of ATV routes in Sauk County and the ability to connect to many more 1,000's of miles in our neighboring counties.

Sauk County is a made up of 3 cities, 14 villages, 22 townships and 15 unincorporated municipalities.

- As of today, the Cities of Reedsburg and Wisconsin Dells have adopted ordinances to allow ATVs on all their streets having a 35 MPH or less speed limit. Leaving the City of Baraboo the only city without ATV access for its businesses and residents.
- 9 of its 14 Villages have ATV routes have existing ATV routes with 2 more now in discussion of getting routes approved.
- 20 of its 22 townships have ATV routes in some form with many having all roads accessible. The remaining townships which are Greenfield and Merrimac. Greenfield Township will be going to a referendum on April 6th regarding opening all its town roads and Merrimac hoping to adopt ATV routes after Greenfield Township.
- 11 of its 15 unincorporated communities have ATV routes.

Respectfully Yours
